## **Teaching Summary (1991 - 2015)**

### **Graduate Teaching**

Agricultural Policy - taught Masters course (AGEC 614) six times to an average of 12 students each semester. Taught Ph.D. course (AGEC 615) three times to an average of 8 students each year. Teacher evaluations are summarized in Table 1.

Simulation and Risk Analysis - created and taught Masters course 19 times since 1997 to classes ranging in size from 25 to 53 students. Taught the simulation half of the course the first three years and both the forecasting and simulation sections starting in 2000. Teacher evaluations for this course are summarized in Table 2.

Created and taught a Ph.D. course (AGEC 643) on simulation, risk analysis, and modeling 21 times since 1991. Initially the course was taught every other year. In 1997 it was made a mandatory course in our Ph.D. program and since then has been taught every Fall. Teacher evaluations are summarized in Table 3.

### **Undergraduate Teaching**

Agricultural Policy - taught the senior ag policy course (AGEC 429) 8 times starting in 1999. The course has had an enrollment of 87 - 150 over this time. Teacher evaluations are summarized in Table 4.
