Flow Chart of Title I Producer Choices for Covered Commodities (Does Not Include Upland Cotton)

- This decision is on a crop by crop basis for each farm unless the producer chooses individual ARC then it is for all the crops on that farm.
- If all parties cannot agree on the ARC/PLC choice then the farm would not be enrolled in ARC or PLC for the 2014 crop and the farm would automatically be enrolled in PLC for the 2015 crop and beyond.

Who Makes The Decisions?

Base reallocation

• As soon as practicable after the date of enactment of this Act, the Secretary shall provide notice to the owners of a farm regarding their opportunity to make an election

Yield Update

- At the sole discretion of the owner of a farm, the owner of a farm shall have a 1-time opportunity to update, on a covered commodity-by-covered-commodity basis, the payment yield that would otherwise be used in calculating any price loss coverage payment for each covered commodity on the farm for which the election is made.
- POA's on file will be honored according to FSA

Who Makes The Decisions? (Cont.)

• ARC or PLC

- For the 2014 through 2018 crop years, all of the producers on a farm shall make a 1-time, irrevocable election to obtain—
 - (1) price loss coverage under section 1116 on a covered commodity-bycovered-commodity basis; or
 - (2) agriculture risk coverage under section 1117.

IN GENERAL.—The term "producer" means an owner, operator, landlord, tenant, or sharecropper that shares in the risk of producing a crop and is entitled to share in the crop available for marketing from the farm, or would have shared had the crop been produced.

This decision stays with the farm for the life of the farm bill
